

What Bonuses are available at Fort Securities Australia?

There are two types of bonus that may be applied to your account, the **Balance Bonus** and the **Credit Bonus**:

Balance Bonus – this is the standard bonus which may be received when you make a deposit to your account and is entirely at Fort Securities Australia’s discretion.

Credit Bonus – this is an alternative bonus with additional Terms and Conditions (see subsequent paragraph), it is also entirely at Fort Securities Australia’s discretion.

Balance Bonus – Terms and Conditions:

1. Bonuses will be added to an account after the full document verification process is completed.
2. Bonuses cannot be withdrawn until the client reaches their target volume, which is set according to the bonus amount given.

The client must fulfill a trading requirement of 0.1 lot* for every 1 USD/GBP/EUR/AUD bonus given in order to reach their target volume, for example:

If the bonus is £30, once the trading volume on FX markets arrives to the total amount of £300,000 (multiply the bonus by 10,000) it is possible to withdraw the £30 bonus.

Varying lots are allocated depending on the type of product traded. For example, 1 lot is allocated for:

£10,000 nominal trade placed on FX / 1,000 barrels of Crude Oil (CL) / 100 oz. of Gold (XAU).

3. The volume count is per closed trades only, for example:
If a client opens a 1 lot trade on EUR/USD, the volume will not be counted until the trade is CLOSED.
4. The volume count is done only when a client has an ACTIVE bonus in their account.
5. Balance bonus can be used for the purpose of leverage.
6. If multiple bonuses are allocated then these will be consolidated into a single bonus, for example five \$100 bonuses will be consolidated as one \$500 bonus and cannot be divided afterwards.

CFDs and margin FX are leveraged products that carry a high level of risk to your capital. You should only trade with money you can afford to lose. Be Aware: You can lose all, but not more than the balance of your Trading Account. You do not own, or have any rights to, the underlying assets. Past performance is no guarantee of future performance. This information is intended to be general in nature and is not financial product advice. Any advice contained on this website or provided to you by Fort Securities Australia Pty Ltd is general advice only and has been prepared without considering your objectives, financial situation or needs. Before acting on any information, you should consider the appropriateness of the information provided and the nature of the relevant financial product having regard to your objectives, financial situation and needs. We encourage you to obtain independent financial advice and consider our [Financial Services Guide \(FSG\)](#) and [Product Disclosure Statement \(PDS\)](#) before deciding to enter into or obtain any financial products issued by us. Fort Securities Australia PTY LTD (T/A Forttrade Australia) is licensed and regulated by the Australian Securities and Investments Commission (ASIC) ABN: 33 614 683 831 | AFSL number: 493520.

7. When a client fulfils the required amount of 0.10 lots for every EUR/ USD/GBP/AUD of cash credit bonus, it will automatically become a part of their capital, and can be withdrawn.
8. In the following countries, bonuses are approved only if the deposit is made via wire transfer: Indonesia, Vietnam, China, Pakistan, Ukraine, Cote d'Ivoire, Bangladesh, Russia, and Egypt.
9. Bonuses are limited and are at the discretion of the company. Bonuses are subject to cancelation by company policy at any time.
10. **Balance Bonus only – the bonus will be cancelled if profits are withdrawn before the target volume is met.**

Credit Bonus – Additional Terms and Conditions:

1. Credit Bonus cannot be lost nor withdrawn until the client reaches their target volume, which is set according to the bonus amount given.
2. In case a client has not reached their target volume, the credit bonus will be removed automatically when their EQUITY falls below the CREDIT BONUS amount. The client will get STOPPED OUT in that case, and their open positions will be closed accordingly.
3. Up until the client's target volume, the cash credit bonus can only be used for margin.
For example, if a client has \$100 in the account and has \$100 Credit Bonus, the client can trade \$200 = \$100 Balance + \$100 Credit Bonus, on margin.
4. The credit bonus can be reactivated if a client re-deposits at least 30% of its value, for example: if a client received a credit bonus of 1,000 AUD, and reached a trading volume of 50 lots before getting stopped out, when they redeposit an amount of at least 300 AUD, they are entitled to reactivate the old credit bonus, and the volume count continues from where they left off.

In the event you receive a new credit bonus which is higher than an old cancelled bonus – the volume count will continue from where it left off. For example:

CFDs and margin FX are leveraged products that carry a high level of risk to your capital. You should only trade with money you can afford to lose. Be Aware: You can lose all, but not more than the balance of your Trading Account. You do not own, or have any rights to, the underlying assets. Fort Securities Australia PTY LTD (T/A Fortrade Australia) is licensed and regulated by the Australian Securities and Investments Commission (ASIC) ABN: 33 614 683 831 | AFSL number: 493520.

If you receive a 1,000 USD credit bonus and trade 5 lots, then get stopped out/withdraw your money, the bonus will be cancelled. If you re-deposit and receive a higher bonus (2,000 USD for example), the volume count will continue from 5 lots.

In the event you receive a new credit bonus which is lower than an old cancelled bonus – the volume count will be set to “0” (zero).

Please note that for clients whose total volume count is based on more than 20% indices and shares (in terms of lots) - their credit bonus conversion rate will become 2.5 lots per 10 USD instead of 1 lot per 10 USD. In such a case, Fortrade reserves the right to revert any bonus conversion, and set an updated volume target of 2.5 lot per 10 USD.

How do I withdraw bonus funds?

In order to withdraw bonus funds, it is a requirement to first reach a trading volume of 10,000 £/€/\$/A\$ for each 1 £/€/\$/A\$ bonus received.

For example, if you have a bonus of \$30 and your trading volume has reached a total amount of \$300,000 (i.e. a multiplication of the \$30 bonus by \$10,000), it is then possible to withdraw the \$30 bonus.

You can easily track your trading volume by accessing “Closed Trades” in the platform’s menu and exporting the records to an excel file. You can then sum the total appearing in the “Amount” column.

For more information about our bonus trading conditions, please contact Fort Securities Australia Customer Support at support@fortrade.com.
